

Example 1

Date 1/5/12

Learning Target: Subtract and Regroup with a zero

Skills I already know that might help me.	What did you learn today?	Questions you have about the new learning.	What did you do during the lesson to show the UPP Promises?	What are you going to work on for the next lesson?
I already know start with ones place write problem vertical label each place subtract to 0	how to subtract and regroup with a zero	No questions for me.	I had eyes on the teacher set up ... followed all addition and subtraction steps.	Not playing in my desk try to check work.

Put a check next to the sentence that describes you best:

- I am stuck and need some help.
- I am getting it but need some more practice.
- It makes sense and I am ready for the next step.
- I can explain it to someone else and I am ready for a challenge.

Example 2

Date 1-9-12

more than one

Target: Multi-Step Problem

Skills I already know that might help me.	What did you learn today?	Questions you have about the new learning.	What did you do during the lesson to show the UPP Promises?	What are you going to work on for the next lesson?
Choose a strategy understand close to ten write problem vertical label each place	in the problem there is a hidden question you have to break it up	I do not have any questions	I did not SIDETALK OR play while the teacher was talking	not to get frustrated 

Put a check next to the sentence that describes you best:

- I am stuck and need some help. **We will keep practicing!**
- I am getting it but need some more practice.
- It makes sense and I am ready for the next step.
- I can explain it to someone else and I am ready for a challenge. **you did great!**
